☆		+19568673280 Leo Lopez Mr CM i appreciate you walking us throughout the site. I however am confused as to what the enngineers responsibility and what the contractors responsibility. In addition David Salinas has been brought up several times, and i personally remember him being very involved. I think it would be very important that he be available with us, Susan Crawford and Rolando Briones. Without his input we are making decisions on what we think happened. We have contracts with CCI and Briones I want to make sure the City Attorney be included to determine legal responsibilities we have. your nor I are attorneys and need to get him to advise us directly independent of what mr chapman is doing. <b>Source Extraction:</b> File System	2/5/2016 4:02:07 PM(UTC+0)
